Three Big Mistakes - to avoid when your child is young

As a parent, we are committing three big mistakes

- We all believe that schools will take care of your child's emotional, intellectual growth. As a parent not spending enough time with your child is the first mistake, we need to avoid.
- Not choosing the right activities is another big mistake we make. Choose an activity that is creative, promotes curiosity, and connects with real life.
- Not focusing on the right communication styles when doing activities with your kids. Avoid either too much instruction or leaving it completely free.

If you have a child in the age group of 4 to 13, it is time to give them necessary thinking tools/models.
