

Create. Use just three shapes & your imagination to create objects

Thinking Tools #2: Create an object using three basic shapes, imagining different possibilities.

An example: Excavator

Here is an example of a Excavator picture made by four orange rectangles and three circle. You can use the pictures provided in the book to create any object you imagine.

Create. Use just three shapes & your imagination to create objects

space to stick

Images (square,rectangle,circle) are provided in the last page.
Cut it and paste it to make an object.

Create. Use just three shapes & your imagination to create objects

space to stick
